KINAXIS®

PRODUCT SOLUTION

Kinaxis Planning One®

The Kinaxis Planning One package, powered by the industry-leading Kinaxis Maestro platform, offers a low-risk, cost-effective way to elevate your supply chain planning. Recognized by Gartner as a Leader in Supply Chain Planning for 10 years, Maestro enables Planning One to address diverse needs—from moving beyond Excel or outdated systems to enhancing inventory management, forecasting, and collaboration. With a fast and efficient implementation by Scott Sheldon, a certified Kinaxis partner, Planning One delivers the supply chain transparency and agility needed to make faster, more confident decisions.

A low-risk, low-cost, fast time-to-value entry point to digital supply chain transformation

Rapidly rising global supply chain disruptions mixed with everyday volatility mean your business is facing more pressure than ever before. You know you need to break down silos, connect functions and digitally transform your supply chain to survive. But challenges are everywhere. Unpredictable cash flows. Overstretched teams. And an urgent need for agility and resiliency now.

Kinaxis® Planning One™ makes it quick, easy and affordable for companies of all sizes to get started with their digital supply chain transformation and enable concurrent planning across end-to-end supply chain planning processes.

Real-World Expertise for a Faster, Smarter Go-Live

With Scott Sheldon as your certified Kinaxis partner, you gain more than just technology implementation—you get a team that understands your business, your industry, and your unique challenges. Our consultants have sat in your chair, bringing firsthand knowledge of supply chain planning, operations, and strategy. This experience allows us to deliver a tailored, efficient go-live that drives immediate visibility and faster decision-making.

1. Quickly go from Excel to advanced planning

Get immediate relief of your biggest pain points by making the switch from Excel to advanced planning and realize a fast time-to-value.

2. Effortlessly build enterprise-wide trust

Break down silos, create a shared, single source of the truth and align your organization around critical business objectives to cultivate trust across the entire organization.

3. Seamlessly expand your digital transformation

Easily extendable with no loss of investment by adding on a wide range of additional planning functionality, including S&OP, demand sensing and the Kinaxis Command & Control Center.

An all-in-one advanced planning solution

Planning One combines the essential capabilities of a control tower with the instant and continuous synchronization of concurrent planning across demand, supply, inventory and operational planning. All leveraging the full power of the industry's only true concurrent planning platform [Kinaxis Maestro™](#).

Expand at your own pace with zero loss of investment

Built on the industry-recognized and customer-trusted Kinaxis platform, Maestro, Planning One is a fully featured package that's seamlessly expandable with zero loss of investment. Easily take your supply chain to the next stage in your maturity journey by adding on any other Kinaxis application or industry package including supplier collaboration, order fulfillment, inventory optimization, transportation optimization, production scheduling and more!

About Scott Sheldon
